key.kicad_sch is used 6 times; only /Key/ is drawn here.

The other instances (Key1, Key2, Key3, Key4, Key5) are the same circuit with different reference designators, listed per instance at the end of this PDF.

key.kicad_sch: reference designators per instance

This sheet is placed 6 times. The PDF draws only /Key/ (highlighted row); every other instance has the same circuit with the designators in its row. Columns follow the drawn instance's designators.
